SonicWALL Security Services

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For TZ 150 Series (1 Year) 01-SSC-5846 For TZ 170 Series Unrestricted Node (1 Year) 01-SSC-5844 For TZ 170 Series 10 and 25 Node (1 Year) 01-SSC-5845 For PRO 1260 (1 Year) 01-SSC-5849 For PRO 2040 (1 Year) 01-SSC-5850 For PRO 3060 (1 Year) 01-SSC-5851	The SonicWALL Comprehensive Gateway Security Suite combines security, productivity, reporting and support in a single, low-cost solution. Available on all SonicWALL TZ Series appliances and select PRO Series appliances, the Suite is the perfect solution for turning your SonicWALL into a total security and productivity platform. The Comprehensive Gateway Security Suite is a 1-year subscription service that includes: <ul style="list-style-type: none"> Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service Content Filtering Service Standard Edition (TZ Series) or Premium Edition (PRO Series) ViewPoint Reporting Software 8x5 Support
Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service		For TZ 150 Series (1 Year) 01-SSC-5771 For TZ 170 Series Unrestricted Node (1 Year) 01-SSC-5751 For TZ 170 Series 10 and 25 Node (1 Year) 01-SSC-5752 For PRO 1260 (1 Year) 01-SSC-5770 For PRO 2040 (1 Year) 01-SSC-5757 For PRO 3060 (1 Year) 01-SSC-5758 For PRO 4060 (1 Year) 01-SSC-5759	Available on SonicWALL TZ and PRO Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code. <i>Note: PRO 5060 ships with one year of Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service included.</i>
Network Anti-Virus <i>plus</i> Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year) 01-SSC-2741 100-user License (1 Year) 01-SSC-2742 50-user License (2 Years) 01-SSC-2746 100-user License (2 Years) 01-SSC-2747	SonicWALL Network Anti-Virus <i>plus</i> Anti-Spyware combines SonicWALL's patent-pending Network Anti-Virus, and McAfee's award-winning NetShield for Windows anti-virus and anti-spyware. Combining advanced virus and spyware scanning technology with unmatched management capabilities, it provides: <ul style="list-style-type: none"> Comprehensive virus and spyware protection using a single integrated client Automated enforcement of virus and spyware protection policies Automated deployments of anti-virus and anti-spyware definition and software updates Full featured e-mail attachment filtering
Content Filtering Service		CFS Premium Business Edition For TZ 150/170 Series (1 Year) 01-SSC-5650 For PRO 1260/2040/3060/4060 (1 Year) 01-SSC-5652 For PRO 4100 (1 Year) 01-SSC-5653 For PRO 5060 (1 Year) 01-SSC-5654	SonicWALL Content Filtering Service Premium Edition enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
Global Security Client		5-user License (1 Year) 01-SSC-5250 10-user License (1 Year) 01-SSC-5251 25-user License (1 Year) 01-SSC-5252 100-user License (1 Year) 01-SSC-5253 1,000-user License (1 Year) 01-SSC-5254	The SonicWALL Global Security Client combines gateway enforcement, central management, configuration flexibility and software deployment to deliver comprehensive desktop security to mobile workers and corporate networks. Central policy configuration and distribution at the gateway greatly improves employee productivity and network efficiency while preventing the use of inappropriate and unproductive applications.
ViewPoint		For TZ 150/170 Series 01-SSC-2901 For PRO 1260/2040/3060/4060/5060 01-SSC-2902	SonicWALL ViewPoint reporting software gives administrators instant insight into network security status through easy-to-understand real-time and historical reports on a comprehensive set of monitored functions. ViewPoint helps organizations recognize suspicious activity and enhance employee productivity by providing summaries of network attacks and reports on user behavior that identify time-wasting and bandwidth-intensive activities.
Global Management System		10-node License 01-SSC-3363 25-node License 01-SSC-3316	SonicWALL GMS provides small organizations, enterprises and service providers with flexible, powerful and intuitive tools to centralize security policy management for several to thousands of remote SonicWALL security appliances, VPN, and security services such as Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention and Content Filtering. SonicWALL GMS scales with growing networks and offers centralized reporting and monitoring.
Dynamic Support Services		1-Year contracts 2-Year contracts 3-Year contracts Two- and three-years contracts available on TZ 150/TZ 170/PRO Series, SSL-VPN and CSM only.	SKUs by product SKUs by product SKUs by product For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services are available during normal business hours, or 24x7, depending on customer needs. These services include: <ul style="list-style-type: none"> Annual subscription to software and firmware updates and upgrades Access to telephone and Web-based support for installation, configuration and troubleshooting help Advance exchange hardware replacement in the event of failure Annual subscription to SonicWALL Service Bulletins and access to electronic support tools

SonicWALL Security Solutions

Wireless Solution Enablers

Product	SonicPoint/SonicPoint G	PoE Injector	Long Range Dual Band Wireless Card
Part Numbers	01-SSC-5523 (SonicPoint) 01-SSC-5537 (SonicPoint G)	01-SSC-5532	01-SSC-5514
Market Positioning and Specific Features	<p>Available in IEEE 802.11a/b/g and 802.11b/g options, SonicPoints are dependent access points that provide secure wireless LAN connectivity to users on the network. Includes:</p> <ul style="list-style-type: none"> • IEEE 802.11a/b/g and 802.11b/g options • Automatically Provisioned • WPA Support Using TKIP or AES • Up to 108 Mbps 802.11a and 802.11g Data Rates • IEEE 802.3af Power Over Ethernet Receive Capability • Detachable antennas (SonicPoint G only) 	<p>The SonicWALL PoE Injector is an IEEE 802.3af compliant power injector that detects the presence of PoE-compatible devices and "injects" the appropriate power into the data cable. Includes:</p> <ul style="list-style-type: none"> • Remote Power Feeding • IEEE 802.3af Compliant • Ease-of-Use • Advanced Auto-sensing Algorithm 	<p>The SonicWALL Long Range Dual Band Wireless Card is a tri-mode, dual band, IEEE 802.11a/b/g-compliant CardBus PC card that complements the high-power wireless capability of SonicWALL's secure wireless solutions. Includes:</p> <ul style="list-style-type: none"> • Superior Transmit/Receive power • IEEE 802.11a/b/g Compliant • Up to 108 Mbps 802.11a and 802.11g Data Rates • IEEE 802.11d Multi-country Roaming Support

Content Security

Product	Content Security Manager 2100 CF	Content Security Manager 2100 CF Update Service
Part Numbers	01-SSC-6001	Available in 1-Yr Subscriptions
Market Positioning and Specific Features	<p>The SonicWALL Content Security Manager 2100 CF integrates real-time gateway anti-virus, anti-spyware and Internet filtering to deliver maximum network protection from today's sophisticated Internet threats. Includes:</p> <ul style="list-style-type: none"> • Integrated gateway anti-virus, anti-spyware and Internet filtering • Deep packet inspection architecture • Instant messaging (IM), peer-to-peer (P2P) and multimedia controls • Scanning and cleaning of network traffic over a multitude of widely-used ports and protocols • Onboard dynamic rating engine • Integrated Web-based reporting and analysis 	<p>CSM 2100 CF Update Service (25 Users) 01-SSC-6006 CSM 2100 CF Update Service (50 Users) 01-SSC-6007 CSM 2100 CF Update Service (100 Users) 01-SSC-6008 CSM 2100 CF Update Service (250 Users) 01-SSC-6009 CSM 2100 CF Update Service (500 Users) 01-SSC-6010 CSM 2100 CF Update Service (1,000 Users) 01-SSC-6011</p>

SSL-VPN

Product	SSL-VPN 2000	SSL-VPN 200
Part Numbers	01-SSC-5953	01-SSC-5947
Market Positioning and Specific Features	<p>The SonicWALL SSL-VPN 2000 provides mid-size enterprises (up to 1000 employees) with a simple, affordable secure and clientless remote network and application access solution for remote and mobile employees. Users can easily and securely access e-mail, files, intranets, remote desktops (includes both full desktop and individual application access) and other resources on the corporate LAN from any location through a standard Web browser. Includes:</p> <ul style="list-style-type: none"> • Unrestricted concurrent user tunnels; 100 recommended under common usage scenarios • Seamless integration behind virtually any firewall • Clientless connectivity – no pre-installed or "fat" VPN client • NetExtender technology provides advanced capabilities • Personalized portal experience 	<p>The SonicWALL SSL-VPN 200 provides small businesses (up to 50 employees) with a simple, clientless, cost effective alternative to IPSec remote access VPN and remote access software. Using a standard web browser, users can easily and securely access e-mail, files, intranets, remote desktops (includes both full desktop and individual application access) and other resources on the corporate LAN from any location. Includes:</p> <ul style="list-style-type: none"> • Unrestricted concurrent tunnels; optimized for 10 concurrent users • Seamless integration behind virtually any firewall • Clientless connectivity – no pre-installed or "fat" VPN client • NetExtender technology provides advanced capabilities • Personalized portal experience

Email Security

SonicWALL Security Solutions

Product	Email Security 200,300,400 and 500 Series	Email Security Software (Small and medium business)	Email Security 6000 and 8000 Series	Email Security Software (Enterprise)
Part Numbers	01-SSC-6600 (200 Series) 01-SSC-6601 (300 Series) 01-SSC-6602 (400 Series) 01-SSC-6603 (500 Series)	01-SSC-6630 (50 Users) 01-SSC-6631 (100 Users) 01-SSC-6632 (250 Users)	01-SSC-6664 (6000 Series) 01-SSC-6665 (8000 Series)	01-SSC-6633 (1000 Users) 01-SSC-6634 (5000 Users) 01-SSC-6635 (5000+ Users)
Market Positioning and Specific Features	Ideal for small and medium-sized businesses, SonicWALL Email Security appliances are easy to install and extremely effective at stopping all e-mail threats at the SMTP gateway. This powerful solution protects organizations against threats including spam, phishing, viruses, Denial-of-Service and Directory Harvest Attacks, and compromised Zombie machines. These appliances also provide robust outbound e-mail management for policy and regulatory compliance. Based on a hardened SonicWALL OS, these plug-and-play appliances install in less than an hour to securely protect your e-mail.	SonicWALL Email Security Software is ideal for small and medium-sized businesses that want to implement a software e-mail security solution on their existing hardware. With all the available features of the SMB appliances, SonicWALL Email Security Software secures organizations from all inbound and outbound e-mail threats through an easy-to-use, Web-based administrative interface.	SonicWALL Email Security 6000 and 8000 offers comprehensive, effective and scalable e-mail security for enterprise environments. Its unique pre-emptive scanning Mail Transfer Agent (MTA) offers breakthrough message analysis and industry-leading message delivery rates. This easy-to-manage solution combines powerful anti-spam, anti-virus and anti-phishing capabilities with outbound e-mail compliance management enabling consolidation of the e-mail security infrastructure, thereby, reducing cost and complexity. By identifying, monitoring and applying policy to confidential information, SonicWALL Email Security 6000 and 8000 appliances enable organizations to take a substantial step towards e-mail compliance.	For enterprises that standardize on specific hardware, have existing monitoring and backup systems, or just want the ultimate in deployment flexibility, SonicWALL Email Security Software provides all the functionality of SonicWALL Email 6000 and 8000 Series on a software platform. This e-mail security solution combines best protection with effortless control and high performance.

Product	Email Protection Subscription Service with 8x5 support	Email Protection Subscription Service with 24x7 support
